Subject: Application 10/581551--non-errored sequence listing

Ms. Wallace:

Per your request of this afternoon's telephone conversation, I am confirming that the June 4, 2007, annotated sequence listing for 10/581551 had no errors. I had made some minor edits to the "General Headers" section, which produced the "Sequence Listing was accepted with existing errors" notice at the top of the sequence listing image.

I have since asked the sequence listing programmers to change the wording of the edited sequence listing notice described above, as it has caused questions from both applicants and patent examiners.

Thank you.
